

Law Firm Grew Rapidly and Needed a New Office

A fast-growing law firm moved into a larger office and needed more than furniture. We delivered a complete technology fitout so lawyers and support staff could walk into a fully working, secure workplace from day one.

KEY RESULTS

5

Teams meeting rooms ready on move-in day

34"

widescreens with docks at every desk

Dedicated

dark fibre link to Next DC Datacenters

BEFORE

- New office was an empty shell with no desks, chairs, meeting rooms or IT infrastructure
- Staff needed reliable, high-quality workstations with consistent docking and large screens
- Five Teams meeting rooms required video conferencing, displays, microphones and clean cable management
- No secure Wi-Fi, managed print or internet connectivity in place

AFTER

- 5 - Teams meeting rooms ready on move-in day
- 34" - widescreens with docks at every desk
- Dedicated - dark fibre link to Next DC Datacenters
- Supplied and installed desks, ergonomic chairs, 34-inch widescreens and USB-C docking stations for every workstation

"We opened the doors and everything just worked. The meeting rooms, the printers, the phones, the files - it felt like we had been there for years."

- Office manager, growing law firm
